## LEVERAGING SUPERINTELLIGENCE TO EMPOWER HUMANITY ON AN UNPRECEDENTED SCALE FOR THE 21ST CENTURY

*'Give me a lever long enough and a fulcrum on which to place it, and I shall move the world.'* — Archimedes

**A renewal of the High Renaissance ideals with precision engineering**  
**Billionaire Business Enterprises Inc. is leading the impactful 'da Vinci' program to leverage superintelligence to empower Humanity on an unprecedented scale for the 21st century.**

We are starting an effort reaching out to *Captains of Industry, Iconic Tech Entrepreneurs, Philanthropists, Scholars* and *Successful Financiers* to join us in this task of historic proportions.

## CAPABILITIES

### **Benchmarking 'da Vinci' Program's Agents**

At the forefront of AI, our present superhuman agents can see, learn from experience, simulate our world and orchestrate meta-solutions. The international metric consists of the state-of-the-art *OpenAI Gym*.

## REAL WORLD APPLICATIONS

### **Our Goal #1 — Build an Affordable General-Purpose Robot**

Objective → Build a general-purpose robot that can execute a complex function specified by language with its own style and creativity and capacity to bear a conversation. General-Purpose AI. Superhuman.

### **Our Goal #2 — Deploy AI Apps: Disrupt and Create New Markets**

1 **Cyber-Security Agent:** A learning prediction model for real-time cybersecurity.

3 **DeepFund Agent:** A superhuman agent that learns to trade from its experience.

2 **Power Saving Agent:** Cut electricity bill with an AI agent-powered infrastructure.

4 **Real-Time Bidding (RTB) Agent:** Optimized content to the right audience.

### **Our Goal #3 — Solve Humanity's Toughest Challenges (See: 'Joint SuperIntelligence Task Force')**
